

What Is TEAM?

Purpose

The purpose of the Transportation Engineers Association of Missouri shall be to advance the knowledge of transportation engineering and to provide a forum for the continued education of and communication among all parties dedicated to promoting a quality transportation system that serves the public welfare of Missouri.

History

- TEAM was originally known as the Highway Engineers Association of Missouri.
- The organization was created in the early 1900s.
- Official by-laws for the organization were adopted on January 24, 1923.
- 2006 marks the organization's 96th conference.
- In 2003, to more accurately portray the various engineering disciplines that are involved with transportation in Missouri, the organization's by-laws and name were changed by a vote of the general membership to:

**Transportation Engineers
Association of Missouri**

Professional Development Hours

Attendees at the conference will be eligible to earn Professional Development Hours (PDHs) by attending technical presentations. Professional Development Hours (also referred to as Professional Development Units by some registration bodies) are often required for renewal of licenses and certifications. The technical presentations at the conference will go towards meeting those requirements.

It is anticipated that approximately 10 PDHs can be earned by attending the conference and up to 6 additional PDHs can be earned by attending the workshops offered on Tuesday.

A PDH Tracking Form will be provided for each attendee to track the number of Professional Development Hours earned based on which sessions they attend at the Conference.

Conference Presentations

Presentation topics are now being considered for the 2006 Conference. Individuals interested in presenting at this conference or future conferences should contact Scott H. Stone.
